Bring any make of moisture meter for testing against known samples and view the latest crop assurance equipment at the same time. Seek advice on getting the best from your meter from the Martin Lishman moisture meter specialists. On display will be the latest Protimeter *Grainmaster i2-5* moisture meter plus probes and a selection of the Martin Lishman product range.

If your moisture meter meets the required standard expected, a calibration certificate will be issued. This can be used as part of your annual quality assurance verification. There will be a nominal charge per stand-alone meter and per additional probe certificate issued. Any meter requiring a full service can be taken back to the Martin Lishman Service Centre. Martin Lishman reserve the right to amend grain clinic dates if necessary.
